

ELTE

FACULTY OF
INFORMATICS

How to switch your training in Neptun?

For
Readmitted students

Students continuing their studies
in the MSc programme

Click on the arrow beside your name in the top right corner, then the **Switch training** button.

The screenshot displays the user interface of the ELTE Faculty of Informatics. At the top, there is a navigation bar with a logo, a 'Menu' button, and a search bar. Below this, a user profile card is visible, featuring a blue circular profile picture and a grid of dashboard widgets including 'Upcoming events', 'To do', 'Results', 'Exams', 'Averages', 'Messages', 'News', 'Debts', and 'Advanced'. On the right side of the profile card, a dropdown menu is open, triggered by a small upward-pointing arrow. This menu lists various options: 'Training: Computer Science - IK-PROGINF-NBEN (BA/BSc) ([Full-time])', 'Admission year: 2025/26/2', 'Start of legal relation:', 'Switch training' (highlighted with a blue border and a green arrow), 'Messages', 'Personal information', 'Document storage', 'Change history', 'Help', 'Profile settings', and 'Logout'.

In the pop-up window, select your current (new) Training. Once it is done, you are free to [register for the semester](#) or [register for subjects](#) in your current training.
